# *About me*

I am a first-year BSIT student with a passion for software development and user-centered design. Currently, I am building a strong foundation in Java programming and web development while exploring the principles of Human-Computer Interaction to create intuitive digital experiences. Beyond coding, I am interested in data privacy and social innovation, always looking for ways to use technology to solve real-world problems and bridge the gap between complex systems and the people who use them.

## Educational Background

- Manacsac Elementary School
- Manacsac High School
- Manacsac SHS

# Experience *Work*

- Photographer
- Immersion
